Davis White Landscape workshops with Andree Davis + Arit Anderson

The Green plan workshop

As part of the schools 'Green Plan ' masterplan . It was wonderful to have a landscape workshop at the school where pupils and staff were able to work alongside BBC Gardeners World Presenter Arit Anderson and Andree Davis of Davis White Landscape Architects, who specialize in creating more immersive nature-based learning landscapes for Schools.

Arit and Andree led this inspiring landscape design workshop where pupils were able to express and develop their ideas for the school campus. Their approach is refreshing and led to pupils freely expressing sustainable ideas with outdoor learning , places to sit and enjoy being closer to nature were central to the themes expressed.
